

Medtrade Accessible Home

The NextGen National In-Home Healthcare Demonstration Home located onsite at Medtrade November 2010 in Atlanta will showcase the latest advances in home healthcare products and services in a real home environment. This first of its kind home will feature a series of typical in-home healthcare scenarios along with the latest “state of the art” products or services required to deliver the care required.

Along with the in-home health care solutions, the NextGen Home will present the latest in mobility, digital health and telemedicine products to provide a complete overview of home-centric health care for both industry professionals and consumers.

Exhibitors to be featured in the Medtrade Accessible Home include:

The VGM Group, EZ-Access Homecare Products Inc, Philips Respironics, Hill-Rom, SeQual Technologies, Invacare, Leggett & Platt, Moen, Covidien, GE Appliances, Fora Care Inc., Star Cushion, Chart-Industries, Pacware, Ergolet and many others
